Light fittings	Unsatisfactory
Installation wiring	Unsatisfactory
Solar and other renewable systems	Unsatisfactory
Electric water heater	Unsatisfactory
Swimming pool equipment	Unsatisfactory
Air conditioners	Unsatisfactory
Vehicle chargers	Unsatisfactory

Non-compliant demo response. Rectification or follow-up is required.

Polarity & Correct Connections Testing

Consumers mains	Fail
Electric water heater	Fail
Circuit protection (circuit breakers / fuses)	Fail
Air conditioners	Fail
RCDs (Safety switches)	Fail
Cooking equipment	Fail
Dishwasher	Fail
Light fittings	Fail
Solar and other renewable systems	Fail
Socket-outlets	Fail
Swimming pool equipment	Fail
Vehicle chargers	Fail

Non-compliant demo response. Rectification or follow-up is required.

Earth Continuity Testing

Mains earth conductor	Fail
Electric water heater	Fail
Switchboards enclosure	Fail
Air conditioners	Fail
Metallic water pipe bond	Fail
Cooking equipment	Fail
Socket-outlets	Fail
Light fittings	Fail
Exhaust fans	Fail
Ceiling fans	Fail
Dishwasher	Fail
Solar and other renewable systems	Fail
Swimming pool equipment	Fail
Vehicle chargers	Fail

Non-compliant demo response. Rectification or follow-up is required.

RCD Testing

All RCDs have passed push and time tests	Fail
--	------

Non-compliant demo response. Rectification or follow-up is required.

Smoke Alarms

All smoke alarms are correctly installed, operational, and tested	No
Next smoke alarm check due	Sunday 9 May 2027

Smoke Alarm Inventory

Voltage	Status	Location	Level	Expiration
Demo non-com...	not-present	Demo non-com...	Demo non-com...	09/05/2026

Non-compliant demo response. Rectification or follow-up is required.

Electrical Safety Check Certification

Inspection date

Saturday 9 May 2026

Next inspection due

Monday 8 May 2028

Signed at

9 May 2026, 11:14 pm

Certification notes

Non-compliant demo response. Rectification or follow-up is required.

Inspector Observations and Suggestions

Generated non-compliant demo report using local assets.

Declaration and Certification

This electrical and smoke alarm report summarises the inspection findings and certifies that the attending technician has performed the required checks and recommendations recorded below.

- AS/NZS 3000 Wiring Rules
- AS/NZS 3019:2022 Electrical Installations - Periodic Verification
- Energy Safe Victoria residential tenancy electrical safety check requirements
- Residential Tenancies Regulations 2021

I certify that this inspection has been conducted by a qualified inspector and the information contained in this report is true and accurate to the best of my knowledge at the time of inspection.

Inspector Certification:

Inspector Name:
Demo Technician
Date: Saturday 9 May 2026

Next Compliance Schedule

Next Inspection Date Monday 8 May 2028

Regulations This electrical safety check has been completed in line with the Residential Tenancies Regulations 2021 and AS/NZS 3019: Electrical Installations — Periodic Verification. It ensures the property's electrical system is safe and free from damage or deterioration that could pose a risk. Any defects or safety concerns identified during the inspection are reported for corrective action.
